Yakub,

but

NO JUSTICE TO KASHMIRI PANDITS!

“When millions of birds and animals are killed in the name of festivals, where are those who become sympathetic for the birds and the environment during Hindu festivals?”

“Nothing wrong on being sympathetic to birds, animals, environment, or humans either!

After all, birds killing is a side effect of kite festival, whereas, birds and animal killings are main festivities in other festivals!

The selectiveness and the double standards points an evil motive behind the resistances against Hindu festivals!”

world require reform
Why Hindu festivals are only
scrutinized?!”**

Why double standards?

What can be done?

Interpretation of Religious books

Hindus need to learn how to counter dangerous ideologies!

"Our religion is the only true religion! Others should be converted or killed! Followers of this message will be rewarded in paradise!"

Opposite ideologies risking Hinduism

"The whole world is my family! Great ideology is being abused by others!"

Time for Hindus to divert some of their energy to confront the imminent threats!

**“Simply listening spirituality in the
comfort of four
walls will not be good enough!”**

**“The Hindus will have to fight back
the forces which are determined
to destroy the Hinduism!”**

The majority of Hindus are in a deep sleep. Some are under the influence of Bollywood anesthesia! Rest are working very hard listening spirituality in the comfort of four walls!

Hindus need to wake up before it gets too late!

Demand 1 or 2 child policy and a Uniform civil code in India (One country; One law!)

As soon as the Hindu population of India goes down to 70% magic threshold, political power along with everything else would shift to an anti-Hindu behavior!

Practicing Hinduism, Buddhism, Jainism, and Sikhism would be impossible

It is no longer about the religions only, but the real threat is in our lives, culture, lifestyle, democracies, legal system, secularism, existence, and humanity.

Next generations would have to pay a heavy price. Even if it is unconstitutional, we will have to have it because "It's getting into a life and death situation!

Do it now or never!"

Let's take it up as a first step.

Let's spread this message to all politicians, dharmgurus, temples, organizations, and people from all walk of life.

Let's demand, talk, discuss, protest whenever we get the chance!

Let's divert some of our energies towards the important issues!

One or two child policy is very crucial for the existence of Hindus.
