## Steve Jobs's Secret to Greatness: Yogananda

The story of the spiritual teacher who was a silent force in the life of the most important entrepreneur of our times. [@](#)

## Why Steve Jobs wanted everyone to read this book after his death

North Shore Daily Post

DECEMBER 31, 2017 3:24AM

American techpreneur Steve Jobs, who died on October 5 in 2011, became a postmodern poster boy of innovation, mixing his cranky thoughts with Zen-like brevity and inscrutability. Very few know his sources of inspiration. One definite source was a book—the only book he had downloaded on his Apple iPad 2 for frequent browsing—Autobiography of a Yogi by Paramhansa Yogananda, a Hindu monk who taught Kriya Yoga, a unique form of meditation, to people all over the world. He wrote the book in 1946, and ever since it has been a bestseller.

# Sanskrit fever grips Germany: 14 universities teaching India's ancient language struggle to meet demand as students clamour for courses

By ADITYA GHOSH

PUBLISHED: 18:24 EDT, 14 April 2015 | UPDATED: 18:24 EDT, 14 April 2015

The summer school in spoken Sanskrit at the South Asia Institute, University of Heidelberg, is attended by students from all over the world

Will Germans be the eventual custodians of Sanskrit, its rich heritage and culture? If the demand for Sanskrit and Indology courses in Germany is any indication, that's what the future looks like.

Unable to cope with the flood of applications from around the world, the South Asia Institute, University of Heidelberg, had to start a summer school in spoken Sanskrit in Switzerland, Italy and - believe it or not - India too.

There is a Hindu saying, "None but a god can worship a god." You have to identify yourself in some measure with whatever spiritual principle your god represents to you in order to worship him properly and live according to his word.

## Follow your Bliss

Most people think that the [starwars.wikia.com/wiki/Jedi](http://starwars.wikia.com/wiki/Jedi) are solely based off of Buddhism and its philosophy, but this is not entirely true.

[starwars.wikia.com/wiki/George\\_Lucas](http://starwars.wikia.com/wiki/George_Lucas) spoke to and was greatly influenced by the mythologist Joseph Campbell, a follower of the Vedanta Society who followed the teachings of the Upanishad, a Hindu sacred text. Joseph Campbell himself mirrored his life after the saying "follow your bliss", derived from the text of the Upanishads.

This mantra, or saying, was the paradigm for Luke's own realization of the force, which itself was a concept which gave meaning, purpose, and power to life, just like the Hindu philosophy derived from the Upanishads.

Carl Sagan (1934-1996), a renowned American astrophysicist, astronomer and astrobiologist admired the Hindu view of the cosmos. **In an undated video, he explained how the ancient cosmological ideas that were central to Hinduism form the basis of modern cosmology.** At the very onset, Carl cited the ancient Hindu sacred text of Rigveda and conceded, "The most sophisticated cosmological ideas came from Asia and particularly from India. Here, there is a tradition of sceptical questioning and unselfconscious humility before the great cosmic mysteries."

## American astronomer explains Hindu cosmology

"Most cultures imagine the world to be a few hundred human generations old. Hardly anyone guessed that the cosmos might be far older but the ancient Hindus did," Carl stated. He then talked about the harvest festival of Pongal which is celebrated in South India and especially in Tamil Nadu. **Carl emphasised that the Hindu festival had ties with an 'elegant and much deeper cosmological tradition' and that it rejoiced the cycles in nature.**

The American astronomer further stated, "The Hindu religion is one of the world's great Faiths dedicated to the idea that the cosmos itself undergoes an immense number of deaths and rebirths. It is the only religion in which the time skills correspond no doubt 'by accident' to those of modern scientific cosmology. The cycles run from our ordinary day and night to a day and night of Brahma – 8.64 billion years long. It is longer than the age of the Earth, the Sun, and half the time since Bing Bang."

We all think **Newton** discovered **Gravity**, but do you know he never took the credit for it? Why?

@youngndharmic

Gravity was mentioned in the **Vedas**. 1100 years before Newton was born, a Hindu Astronomer, **Varahamihira** paraphrased **Aryabhatta** and said *"the earth remains suspended in the sky by a force, just like a piece of iron is held in the grip of a magnet"*

Know your real history!

Gravity is mentioned in Rig Veda which was composed much much before Newton's time ! Besides Varamihira, an ancient Indian book 'Prashnopanishad' describes 'gravity'. Aryabhatta wrote about gravity in 'Surya Siddhanta'. Bhaskaracharya in 'Siddhanta Shiromani' gave a broader concept about gravity.

The science and technological developments we see today in the West is built on the foundations developed in India until Islamic invasions and Western colonialism systematically plundered and destroyed it.

**While Western missionary mafia plan to denigrates Hinduism and plan for its decimation, they want to take Hinduism fruits and make as their own.**

**Famous Rajiv Malhotra's quote:**

When a tiger eats a deer, the flesh of the deer enriches the tiger but the deer form is lost. While West is adopting Hindu principles, Western missionary mafia wants to destroy Hinduism and take fruits of 10,000 years old Hinduism to make as their own, for example, 'Christian Yoga'. Most of the festivals of the so called 'Pagan' religions that West destroyed are now celebrated in the West in Christianized or Western form (e.g., Halloween in US) with no connection to their origin.

Source: Youtube video, Maya Tiger hunting deer, Tadoba

“Just as the tiger, a predator, would, the West, a dominant and aggressive culture dismembers the weaker one – the deer – into parts from which it picks and chooses pieces that it wants to appropriate; the appropriated elements get mapped onto the language and social structures of the dominant civilization's own history and paradigms, leaving little if any trace of the links to the source tradition. The civilization that was thus “mined” and consumed gets depleted of its cultural and social capital, because the appropriated elements are then shown to be disconnected from and even in conflict with the source civilization. Finally, the vanquished prey – the deer – enters the proverbial museum as yet another dead creature (i.e. a dead culture), ceasing to pose a threat to the dominant one” – Rajiv Malhotra on his blog [article](#) , ‘The Tiger and the Deer: Is Dharma Being Digested into the West?’

# Science & Symbolism behind Hinduism

**It is difficult to say where Spirituality end & Science begins.** Every image, every Moorthi, every Mantra, every Vratam, every art (dance, song, music) has enormous meaning and significance for health of body & mind to propel a human being towards oneness with the universe. It comprises environmentalism, feminism (equality of gender), duty towards animals - a complete blueprint for human evolution allowing every being to evolve wherever they are at human development.

# A simple visit to a Hindu temple

## **Why is 'Garbha Gudi' (inner sanctorum) dark in many temples in South India?**

Human being lost in 'unconsciousness (dark)', which results in ego, the constant drone of thoughts causing us to lose 'current moment' because of vasanas (samskaras). (A child is closer to God because it does not have the drone of thoughts that takes away from our internal peace.)

## **What is meaning of lighting a camphor and showing Moorthi's face to a devotee symbolize?**

When Vasanas are expiated through devotion (fire or passion for god) without any residue (like camphor), we get that peace within, the glimpse of God.

## **What does cracking coconut symbolize?**

Some say it is cracking of 'ego', selfishness that if cracked will give sweet water (peace). If you want to be happy, reduce ego and make others happy!!

## **What is symbolism of Agar bathi, Temple bells, sprinkling holy water, sweet prasad, lords face?**

When you are close to 'Bhagwan' (which is within), then you enjoy and cherish the senses (smell, hearing, touch, taste, sight), Ringing bell also a wake up call to human being lost in his thoughts and missing the God within.

## **What does 'Ash' symbolize?**

Everything in the world is impermanent and every name and form will perish and only God within you is real.

# Americans increasingly embracing Hinduism:

## Newsweek

`Lets all say Om` seems to be the new American mantra with an increasing number of people in this country subscribing to the essentially Hindu belief.

New York: `Lets all say Om` seems to be the new American mantra with an increasing number of people in this country subscribing to the essentially Hindu belief that there is no one way to salvation and that many religions could lead to eternal peace.

The theory of re-incarnation, which is central to Hindu belief, also seems to be finding acceptance, with 24 percent of Americans saying they believe in the concept, the article said quoting a 2008 Harris poll.

According to the Cremation Association of North America, more than a third of Americans were now choosing cremation as the ultimate fate of their bodies, up from six percent in 1975, it says.

This contradicts the traditional Christian belief that bodies and souls are sacred, that together they comprise the "self" and that at the end of time they will be reunited in the Resurrection.

It is my firm opinion that Europe (and the United States) does not represent the spirit of God or Christianity but the spirit of Satan. And Satan's successes are the greatest when appears with the name of God on his lips.

(Young India: September 8, 1920)

What the consequences of conversion (to Abrahamic religions) will be to the country as a whole is well worth bearing in mind.

Conversion to Islam or Christianity will denationalize the Depressed Classes.
